FAMILY DETAILS (Including Me)

Name	Sex (M/F)	Age	Relationship	Education	Occupation
Santi Soviana Sukma	F	31	Spouse	Diploma	House Wife
Fairuz Nadhir Azkia	M	5	Child 1	KinderGarden	-
Nadzifa Husna Maulida	F	9M	Child 2	-	-
Bayu Budianto	M	33	-	Diploma	-

SOFTWARE EXPERIENCES

Project Name : GudangX dan NewPerhiasanX

Client Name : Toko Mas Semar Jawa

Role : Software Developer

Software and Platform : MySQL, C++Builder

Other Skill set used : DevExpress, UniDAC

Explanation :

I code in C++Builder for GudangX and NewPerhiasanX, using OOP and Uniquery UniDAC. Th UI is using DevExpress.

Project Name : Integrated Core System (ICS)

Client Name : LPS (Lembaga Penjaminan Simpanan)

Role : Software Developer

Software and Platform : SQL Server, Angular, Typescript and C# .NET MVC

Other Skill set used : Web Service and Unit Test (MOQ, XUnit)

Explanation :

I have a task in GPRM (Group Premi dan Penjaminan), to create Surat External, Nota Dinas, Analisa Kewajaran Simpanan, and Perencanaan Pelaksanaan Verifikasi Premi

Project Name : Confins R3 Foundation and LOS

Client Name : Adins

Role : Software Developer

Software and Platform : SQL Server, Angular, Typescript and C# .NET MVC

Other Skill set used : Web Service and Unit Test (MOQ, XUnit)

Explanation :

I have task to create unit testing using Moq and XUnit to pass SONARQUBE.

Project Name : Danamon E-Solution (PDLink)

Client Name : Manulife Indonesia

Role : Software Developer

Software and Platform : SQL CE, DAO, Visual Basic .Net, Angular and Typescript, REST and SOAP

Other Skill set used : Web Service

Explanation :

This project is to maintain E-Solution for Danamon Unitlink Insurance.

Project Name : DBS E-Solution (Partnerlink Plus)
Client Name : Manulife Indonesia
Role : Software Developer
Software and Platform : SQL CE, DAO, Visual Basic .Net, Angular and Typescript, REST and SOAP
Other Skill set used : Web Service
Explanation :
This project is to maintain E-Solution for DBS Unitlink Insurance.

Project Name : PL Web
Client Name : Manulife Indonesia
Role : Software Developer
Software and Platform : SQL CE, DAO, Visual Basic .Net, WebForm
Other Skill set used : Web Service
Explanation :
This project is to maintain E-Solution for Danamon and DBS Web Agents.

Project Name : ERP Manufacture
Client Name : Freelance
Role : Programmer and Framework Designer
Software and Platform : MySQL Server, ODBC, Visual Basic 6
Other Skill set used : Client Server
Explanation :
This project is to maintain and revise code from VB6 Application. Using Client Server method by using ODBC for MySQL. It contain Sales, Purchase, Inventory, AR, AP and Accounting

Project Name : POS Retail
Client Name : CV Budi Berkah Mandiri
Role : Programmer and Framework Designer
Software and Platform : SQL Server Express, ASP .NET MVC, JQuery
Other Skill set used : Webservice
Explanation :
This project is to create Retail System for CV Budi Berkah Mandiri, purchasing, contract and truck delivery. And also to maintain its Member.

Project Name : WorkFlow (Approval) Management
Client Name : Meikarta (Mahkota Sentosa Utama)

Role	: System Analyst
Software and Platform	: SQL Server Express, ASP .NET MVC, Angular and TypeScript
Other Skill set used	: WebService
Explanation	:
This project is to create WorkFlow Management, the workflow must be dynamic and can be implemented to any application and module that exists in Visionet or Meikarta (MSU).	
Project Name	: ERP Meikarta Property System
Client Name	: Meikarta (Mahkota Sentosa Utama)
Role	: Programmer and System Analyst
Software and Platform	: SQL Server, ASP .Net MCV, Angular and TypeScript
Other Skill set used	: WebService using WebAPI
Explanation	:
Create and Analyze ERP Meikarta Property System, create BRD and table design for MSU Property System.	
Project Name	: Shiawase Framework SDK
Client Name	: Allies XPoss
Role	: Programmer and Framework Designer
Software and Platform	: SQL Server/MySQL, Delphi XE 10.2, DevExpress, FastReport
Other Skill set used	: Client Server application, Framework Architecture and Delphi RTTI
Explanation	:
The project is to built a Framework Software Development Kit, a dynamic framework that no increase in EXE File size, so the programmer/developer could build program from everywhere, put it in the SDK and the Framework Application will recognize it as a module and can run it without further installation in client PC/Server.	
Project Name	: eProcurement
Client Name	: Bank Sinarmas
Role	: Programmer
Software and Platform	: SQL Server, TypeScript, AngularJS, OData, WebApi, Visual C#
Other Skill set used	: Client Server application and Framework Architecture
Explanation	:
The project is to built eProcurement for Bank Sinarmas.	
Project Name	: TIDS (Technical Information Document System)
Client Name	: PT. Mercedes Benz Indonesia (MBINA)
Role	: Programmer

Software and Platform : SQL Server, DevExpress, Visual C#, Scaffolding
Other Skill set used : Client Server application and Framework Architecture
Explanation :
The project is to built TIDS (Technical Information Document System) for production line, technical alteration and control plan.

Project Name : DORA WEB
Client Name : BTPNS
Role : Programmer
Software and Platform : SQL Server, Visual C#, OpenXML
Other Skill set used : Client Server application and Framework Architecture
Explanation :

The project is to built DORA WEB for Financial Reporting Standard.

Project Name : SIPP (Sistem Informasi Pelaporan Perusahaan)
Client Name : OJK (Otoritas Jasa Keuangan)
Role : Programmer
Software and Platform : SQL Server, SQLite, Visual C#, XML, XBRL, VBA for Excel
Other Skill set used : Client Server application and Framework Architecture
Explanation :
The project is to built XBRL Financial Reporting Standard for the OJK IKNB and Non IKNB needs.

Project Name : Aplikasi Bengkel dan Inventory
Client Name : Taxiku Group
Role : Programmer
Software and Platform : SQL Server, Microsoft CRM and Report Builder
Other Skill set used : Client Server application and Framework Architecture
Explanation :
The project is to built Workshop and Inventory for Taxiku Group with Framework Based, I used Microsoft Dynamic CRM, SQL Server and Report Builder.

Project Name : Tire Management System
Client Name : Hiba Group
Role : System Analyst, Programmer
Software and Platform : SQL Server, Borland Delphi 7 and Fast Report
Other Skill set used : Client Server application
Explanation :

This project is to built Tire Management System, to control tire, bus, taxi and analyze data from tire and bus. And to maintain tire in inventory.

Project Name : Body Repair
Client Name : Hiba Armada Motor
Role : System Analyst, Programmer
Software and Platform : SQL Server, Microsoft CRM and Report Builder
Other Skill set used : Client Server application
Explanation :

This project is to built Body Repair Workshop for Hiba Armada Motor, to control inventory, between pool. I used SQL Server, Microsoft CRM and Report Builder.

Project Name : Charter and Rental
Client Name : PT. KBA Berdikari
Role : Programmer
Software and Platform : SQL Server, Visual Basic .Net 2010 and Crystal Report
Other Skill set used : Web Services, XML, Microsoft IIS 5.1/6.0
Explanation :

This project is to build Charter and Rental for KBA Berdikari, it consists of all charter needs like SPJ, DO, Commisions, schedule etc.

Project Name : Costing Management System
Client Name : PT. Samindo Electronics
Role : Programmer
Software and Platform : SQL Server, Visual Basic 6 and Crystal Report
Other Skill set used : Client Server application
Explanation :

This project is to build Costing Management System, so that the director could see Cash Flow in company

Project Name : Remote Management System Control (RMS Control)
Client Name : PT. Samindo Electronics
Role : Programmer
Software and Platform : Borland Delphi 7 and Indy Socket 9
Other Skill set used : Client Server application
Explanation :

A SMT network screen shot grabber application using TCP connections. RMS Control is a network application designed to "capture" screen shot images from machine computers,

display them in one central location (server application) and control it for SMT Dept purposes.

Project Name : IC Download
Client Name : PT. Samindo Electronics
Role : Programmer
Software and Platform : SQL Server, Visual Basic 6 and Crystal Report
Other Skill set used : Client Server application
Explanation :

This project is to build IC Downloader, so that user could see if the IC is good or NG.

Project Name : ESD Check (Electric Static Discharge)
Client Name : PT. Samindo Electronics
Role : Programmer
Software and Platform : MySQL, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :

This project is to build ESD Check, to allow employee to see his/her anti static display.

Project Name : IT Inventory and Repair Control
Client Name : PT. Samindo Electronics
Role : Programmer
Software and Platform : MySQL, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :

This project is to build IT Inventory System and Computer Repair Control. I used Delphi 7, MySQL and Fast Report.

Project Name : Human Resource Development
Client Name : PT. Yasulor Indonesia
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :

The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development

Client Name : PT. Hibaindo Armada Motor
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development
Client Name : PT. Sisindokon Lintasbuana
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development
Client Name : PT. Aneka Spring Telekomindo
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development
Client Name : PT. Jasnikom Gemanusa
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development
Client Name : PT. Datacell Infomedia
Role : Programmer

Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Fleet and Car Rental
Client Name : PT. Hibaindo Armada Motor
Role : Programmer
Software and Platform : SQL Server, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built Fleet and Car Rental System for managing driver, quotation, prospect etc, I used Delphi 7, iX Framework and SQL Server 2000

Project Name : Human Resource Development
Client Name : PT. Idemitsu
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development
Client Name : PT. Darya Varya Laboratories
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application
Explanation :
The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development
Client Name : PT. Satriavi Leisure Management Jakarta
Role : Programmer
Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7
Other Skill set used : Client Server application

Explanation :

The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development

Client Name : PT. Aerowisata International Services

Role : Programmer

Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7

Other Skill set used : Client Server application

Explanation :

The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development

Client Name : PT. Angkasa Citra Sarana (Aerowisata Catering Services)

Role : Programmer

Software and Platform : MySQL, iX Framework, Fast Report and Borland Delphi 7

Other Skill set used : Client Server application

Explanation :

The project is to built HRD System for managing employee, I used Delphi 7, iX Framework and MySQL 5.0

Project Name : Human Resource Development

Client Name : PT. Askes (Persero)

Role : Programmer, Software Implementer

Software and Platform : SQL Server, Cold Fusion, HTML, Javascript

Other Skill set used : Web application

Explanation :

The project is to built HRD System for managing employee, I used SQL Server, Cold Fusion, HTML and Javascript.

Project Name : Human Resource Development

Client Name : PT. Indosat M2

Role : Programmer, Software Implementer

Software and Platform : SQL Server, Cold Fusion, HTML, Javascript

Other Skill set used : Web application

Explanation :

The project is to built HRD System for managing employee, I used Oracle, Cold Fusion, HTML and Javascript.

Project Name : Human Resource Development
Client Name : PT. Indonesia ComNets Plus
Role : Programmer, Software Implementer
Software and Platform : SQL Server, Cold Fusion, HTML, Javascript
Other Skill set used : Web application
Explanation :
The project is to built HRD System for managing employee, I used SQL Server, Cold Fusion, HTML and Javascript.

Project Name : Human Resource Development
Client Name : PT. UOB Buana
Role : Programmer, Software Implementer
Software and Platform : SQL Server, Cold Fusion, HTML, Javascript
Other Skill set used : Web application
Explanation :
The project is to built HRD System for managing employee, I used SQL Server, Cold Fusion, HTML and JavaScript.

Project Name : Human Resource Development
Client Name : PT. PLN (Persero)
Role : Programmer, Software Implementer
Software and Platform : SQL Server, Cold Fusion, HTML, JavaScript
Other Skill set used : Web application
Explanation :
The project is to built HRD System for managing employee, I used SQL Server, Cold Fusion, HTML and Javascript.

Project Name : Human Resource Development
Client Name : PT. Indonesia Power
Role : Programmer, Software Implementer
Software and Platform : SQL Server, Cold Fusion, HTML, Javascript
Other Skill set used : Web application
Explanation :
The project is to built HRD System for manage employee, I used SQL Server, Cold Fusion, HTML and Javascript.

Project Name : Human Resource Development
Client Name : PT. Erajaya Swasembada
Role : Programmer, Software Implementer
Software and Platform : SQL Server, Cold Fusion, HTML, JavaScript
Other Skill set used : Web application
Explanation :
The project is to built HRD System for managing employee, I used SQL Server, Cold Fusion, HTML and Javascript.

Project Name : Human Resource Development
Client Name : PT. Mandarin Oriental Management Indonesia (Mandarin Hotel)
Role : Programmer, Software Implementer
Software and Platform : SQL Server, Cold Fusion, HTML, JavaScript
Other Skill set used : Web application
Explanation :
The project is to built HRD System for managing employee, I used SQL Server, Cold Fusion, HTML and Javascript.

A LITTLE BRIEF ABOUT ME

I am 167 cm tall and 60 kg of weight. I have curly and black hair. My hobbies are reading books, Judo, watching films, listening music and creating program with Borland Delphi. I learned the skill that stated above with reading the books and practice it alone. I have 410 score in TOEFL that I took on 2000. So I think my English wasn't bad at all. I like playing with computers, solving problems with it; I think that's why I have interest in computer works. But I also study Kanji's and Nihongo a bit just to try myself at others interest.

I am sure that I can work and be able as a professional staff at your company. I am a perfectionist, optimistic, innovative and would prefer to do something based on the schedule. In your company, I just want to be a good staff and get better carrier.

About my commencement salary, I believe that you have a standard salary for your new staff. Well..., I think it is a very challenging job.

I declare the details stated above to be true and complete.

Sincerely yours,

Bayu Budianto
